Why stick with **The Myers Way® Paleo Protein** for your pure, grass-fed protein needs? Well...

There're few things *less* appetizing than this:

Protein powder that tastes chalky, lumpy, and ***absolutely awful***...

I know the feeling — not to mention it's SO disappointing when you literally feel like you're pouring money down the drain.

I've tried several protein powders myself that left me feeling like I had just swallowed something resembling swamp water...

Yuck.

Honestly, that's why I'm so incredibly proud of the countless glowing reviews my team receives *raving* about Paleo Protein...

That it tastes just like a decadent dessert... **without the guilt.** 😊
Some people have even commented that it's so delicious, they feel like they're actually having a **cheat meal!**

And this is like music to my ears... considering I spent the better part of a decade formulating a protein powder that:

- ☞ *Actually* tastes great!
- ☞ Is free of **ALL** common allergens — you're getting **ONLY** pure, grass-fed protein in every scoop
- ☞ Is perfect for the whole family!

After all, Paleo Protein contains no **gluten, dairy, soy, whey, GMOs, corn, legumes, or other nasty ingredients that shouldn't be in ANY protein powder... ever.**

So you can *actually* feel good about what you're putting in your body.
